Can Come From Anywhere ...

... Help us
find them

Every student in San Diego should have a shot at a tech career.

— THE LEAGUE OF —
AMAZING
PROGRAMMERS

THE LEAGUE OF AMAZING PROGRAMMERS

The League of Amazing Programmers runs hands-on coding and robotics programs for kids all across San Diego — giving them a real chance to explore their technical interests, often for the first time.

Every Tech Club we open puts that opportunity within reach of a new neighborhood.

The League of Amazing Programmers is a 501(c)(3) nonprofit. EIN 20-4744610

We need your help to grow. Your support lets us bring this opportunity to every quarter of San Diego — every school, every neighborhood, every kid curious enough to try.
