

YOU CAN HELP US OPEN THE NEXT DOOR.

For some students, today may be their first time building a robot, writing code, or seeing themselves as creators. The League of Amazing Programmers opens doors to coding, robotics, and real-world opportunity. With support from families, volunteers, and community partners, more young people can discover what they are capable of.

WAYS TO HELP

Introduce us
to a school

Connect us with
a church, library, or
community group

Share our
mission with
your employer

Volunteer
at an event
or class

Help lead
a Tech Club

Share skills,
resources, or
community
connections

One introduction
can open a class.

One volunteer
can inspire a
room of students.

One partnership
can create
opportunities
for years.

THE LEAGUE
OF AMAZING PROGRAMMERS

BE PART OF SOMETHING

AMAZING.
